

Broaddata LBC-H-T-WP Ultra HD/WUXGA/HDTV WallPlate HDMI/HDBT Extender (Transmitter)

This listing is for LBC-H-T-WP Transmitter only. Use description below as a general reference.

The LBC-HDMI-T/R-WP units are a high performance, low cost, miniature, Link Bridge™ HDBaseT HDMI transmission system. They transmit and receive one (1) unidirectional HDMI video over one (1) CAT5e/6 cable. This unique transmission system lets your digital flat panel display extend up to 70 meters and supports up to Ultra HD and WUXGA (1920x1200 @ 60Hz) or 720p/1080i/1080p HDTV video resolution.

No user adjustment is required for the LBC-HDMI-T/R-WP system due to the use of advanced digital transmission system technology with zero compression and zero bit reduction. This allows for a quick and easy setup, offering trouble-free operation for many years to come. In addition, the LBC-HDMI transmitter/receiver is compatible with our LBC and LBH Series transport products. The LBC-HDMI-T/R-WP comes only in a wall plate form factor. The units are easily monitored by power and link LED indicators.

Features

- Extend HDMI signals up to 100 meters over one CAT 5e/6 cable
- Ultra HD (4K2K) and HDTV video resolutions up to 720p/1080i/1080p @60Hz
