

TVlogic D-TAP-L D-Tap to Mini XLR Power Cable for VFM-056W/VFM-058W Monitor (29 inch)

Power your VFM-056W or VFM-058W monitor from a D-tap power source with this D-Tap to Mini XLR Power Cable from TVLogic. Using a standard D-tap source allows you to unify your rig from a single power source rather than having to rely on and change multiple batteries in different parts of your rig.
