Covid CLR-D29125SMOSP-3KB Cleerline Fiber Duplex OS2 Plenum Cable - 3000ft Box

Cleerline SSFTM fiber Duplex cable is composed of two strands of OS2 cable in a zipcord style with an overall 3.0mm Plenum jacket.

Cleerline SSFTM Duplex cable is stronger, safer, and faster to terminate than typical fibers. Increased bend insensitivity and tensile strength is achieved via the integral polymeric coating at glass level. Cleerline SSFTM fibers are compatible with all common connector systems on the market for standard 50/125 multimode and 9/125 Single mode fibers.

Features

- High mechanical strength and superior fatigue & durability
- Integral coating eliminates stripping, provides glass protection
- Bend longevity for 10,000X longer life time than normal fibers
- Increased safety factor due to the incredible bend insensitivity
- · Glass fiber remains protected at all times from the elements
- · Simplified termination process designed for ease of use
- · Ultra low Attenuation loss on tight bend radius
- Exclusive 250um Soft peel jacket identifier
- Length 3000ft

Applications

Inter-building and intra-building voice or data communication backbones requiring 3.0mm jacket diameter. Install in ducts, underground conduits or aerial/lashed.
