

HuddleCamHD HC-TEAMPLUS-VCS-G3 Team Plus Video Collaboration Solution with HuddlePod Air2 Duo

The HuddleCamHD TEAMPLUS Video Collaboration Solution (VCS) is a easy to install kit designed for video conferencing, live streaming, webinars, and more! We've done the hard work for you and designed a kit that flawlessly integrates with itself and other outside applications. Video conferencing should be easy and affordable, so why complicate it? The Team Video Collaboration Solution is here to correct that issue. You no longer have to spend tens of thousands of dollars for a complicated conference room. With the standard TEAMPLUS VCS kit you get a easy to use launching interface with the Quicklaunch pro edition.

Included with every HuddleCamHD Team* Kit includes ■ 1080■ 10X optical zoom USB conference camera, Wireless Speakerphone and 7th generation i5 Intel NUC computer.
