

Covid CLR-D50125MOM4P Cleerline Fiber Duplex OM4 Plenum - 1000ft Box

Cleerline SSF™ fiber Duplex cable is composed of two strands of OM4 cable in zipcord style with an overall 3.0mm Plenum jacket.

Cleerline SSF™ Duplex cable provides increased strength and durability. The polymeric coating at glass level allows SSF™ to have increased bend insensitivity when compared to standard fiber. Cleerline SSF™ fibers are compatible with all common connector systems on the market for standard 50/125 multimode and 9/125 Single mode fibers.

Features

- High mechanical strength and superior fatigue & durability
- Integral coating eliminates stripping, provides glass protection
- Bend longevity for 10,000X longer life time than normal fibers
- Increased safety factor due to the incredible bend insensitivity
- Glass fiber remains protected at all times from the elements
- Simplified termination process designed for ease of use
- Ultra low Attenuation loss on tight bend radius
- Exclusive 250um Soft peel jacket identifier

Applications

Inter-building and intra-building voice or data communication backbones requiring 3.0mm jacket diameter. Install in ducts, underground conduits or aerial/lashed.
