

Kramer FC-22ETH-b 2-port Serial Control Gateway

The FC-22ETH is an Ethernet control gateway, capable of plug and play deployment over customer Ethernet LAN for remote control of customer controlled devices via bidirectional RS-232 or RS-485 serial control connections. Multiple control clients can be IP-connected to the FC-22ETH control gateway for concurrent control of two RS-232 or RS-485 controllable devices, such as AV scalers, video displays, and audio amplifiers.

Features

- 1 RS-485 or RS-232 Selectable Bidirectional Control Port — Controls a device via bi-directional serial control protocols.
- 1 RS-232 Bidirectional Control Port — Controls a device via bidirectional RS-232 serial control protocols.
- 1 Ethernet Control Port — Remote protocol-based control port.
- Built-in Web Pages — Remote browser-based control and support.
- Simultaneous IP Control Communication — With up to 40 IP control clients.
- Mini USB Port — For firmware upgrades and local technical services.
- Easy Installation — Plug & play IP auto-setup deployment for simple and cost-reducing installation.
