500ft

## Why Use This Product?

- Repair your existing HDMI cables without replacing the entire cable.
- Run HDMI cables to exact lengths. Eliminating unmanageable excess cable after your connection is complete.
- Easily pull your HDMI cable through conduit before you terminate.
- HDMI offers the advantage of transmitting several signal types including audio, video and data over a single cable. In the past, you had to purchase HDMI cables pre-terminated. With the introduction of the LUXI Field Terminated HDMI Connector, you can easily terminate your own HDMI connections in minutes.
