Covid LUX-TPR-150CR Presenter VGA/audio/HDMI/DisplayPort 150 Series Extender (Transmitter)

Traditional interfaces, switchers, splitters and matrix switchers create some problems when dealing with hundreds of different models, all with different input/output numbers and formats. Plus, future expansion is nearly impossible when you have a fixed number of inputs and outputs. With today's expanding demand for digital, high-bandwidth products, hiding all this thick unsightly cable is becoming a real challenge. The Patent Pending LUXI Presenter™ Products are the answer to these problems.

The LUXI 15O series Tx adds another layer of compatibility to a distributed AV switching network. All of the same features as the 110 Tx, with the addition of a scaler to support VGA and Display Port series.

Note: *This unit comes with a power supply.*

Features

- Offering a simple system that replaces all interfaces, switchers, splitters and matrixes
- Scalable to fit your needs - you can add as many Tx and Rx boxes as needed on the fly
- Connects using CAT6 cable - No more messy and unsightly cable clusters
- Built-in scaler for mixed signal formats and resolutions (150 models)
- Full 10Gbps bandwidth, no compression - virtually no propagation delays
- Compatible with a variety of signal formats, including VGA/audio, HDMI, DisplayPort
- One button "Show Me" offers each user the availability to have control
- Insert additional control devices anywhere in the daisy chain via RS-232
- Mountable under tables, above projectors and racks, using UDM-100
- (Also see products ending in "-NPS" after the part number for items sold without power supply)

Why Use This Product?

- **CLASS ROOM:** 1 teacher and 1 projector - connect 1Tx and 1Rx with CAT6 cable
- **CONFERENCE ROOM:** 28 executives and 1 projector - daisy-chain 28 Tx boxes with CAT6 under the table. Use 1 Rx box via CAT 6 at projector.
- **AIRPORT:** 1 computer, 143 flat panel displays - connect 1 Tx box with 143 daisy-chained Rx boxes via CAT 6.
- **RESTAURANT/BAR:** 6 satellite receivers, 22 flat panel HDTV's - daisy chain 6 Tx and 22 RX with CAT6
