

DVDO XtendProTX 4K UltraHD Long Range HDMI Extender (Transmitter) with LAN/POE/100m

This listing is for XtendProTX Transmitter only. Use description below as a general reference.

DVDO XtendPRO takes your HD and 4K experience to extreme distances by enabling seamless extension of HDMI connections over Cat5e/6 cables. Utilize existing Ethernet cabling to Xtend HDMI throughout the house. With HDBaseT technology, DVDO Xtend can provide stable and reliable HDMI connections up to 100 meters.

Xtend 4K throughout the Home

All the reliability of an HDMI cable using existing Ethernet Cat5e or Cat6.

Free From Interference

Unlike whole-home wireless solutions, Xtend provides a reliable, frustration-free connection.

Easy to Install

DVDO Xtend is plug-n-play, installs quickly and easily.

A Proven Technology

Based on HDBaseT technology already in millions of installations, DVDO Xtend takes it to the next level with unsurpassed reliability, range, and features.

Features

- Xtend HDMI up to 100 meters
- Deliver up to 4K with HD audio
- HDMI cable-quality reliability
- Passes remote control signals back to the source
- XtendPRO version carries PoE and Ethernet LAN
