

ViewSonic VG2438SM 24 inch High-Performance SuperClear IPS Display with DisplayPort/DVI/VGA and 4-Port USB Hub

The ViewSonic® VG2438Sm is a 24" high-performance multimedia display with an enlarged 16:10 aspect ratio. With additional vertical viewing space and stunning 1920x1200 resolution, the VG2438Sm is ideal for applications that require the unique 16:10 aspect ratio. It also features full ergonomic functionality including tilt, swivel, pivot, and height adjustments for maximum comfort and enhanced productivity in any enterprise environment. Equipped with ViewSonic's exclusive ViewMode feature, this display provides intuitive presets that deliver optimized screen performance for different applications. In addition, Flicker-Free technology and a Blue Light Filter help to eliminate eye strain from extended viewing periods. The VG2438Sm is also equipped with SuperClear technology that delivers excellent color performance and 178°/178° wide-angle viewing. Versatile connectivity options include future proof DisplayPort technology, DVI, VGA, and a 4-port USB hub. Integrated speakers deliver an excellent multimedia experience, while a VESA-mountable design allows for flexible placement of the display. The VG2438Sm includes ViewSonic's industry-leading pixel policy and 3-year limited warranty, ensuring the product reliability and quality that ViewSonic products consistently provide.
