ViewSonic SC-Z55_BK_US_0 Zero Client with Teracici Tera2321 processor for Virtualized computing

The ViewSonic® SC-Z55 discrete zero client is the perfect solution for companies seeking a seamless desktop experience with ultra-high security and reliability in VMware® Horizon®, VMware Horizon DaaS, Amazon® WorkSpaces, and Remote Workstation environments. This is a true zero client device and features no local memory or moving parts for the ultimate in energy savings and reliability. Based on the Teradici™ Tera 2321, with hardware accelerated PCoIP™, the VMware® Horizon® certified design guarantees performance and compatibility in your network. Dual video outputs provide flexibility for supporting dual 1080p digital displays, and the eco-friendly design consumes up to 90% less energy than standard PCs. The SC-Z55 is also a space saver—its 0.6L form factor easily attaches to your VESA-ready monitor with an included VESA mounting bracket. ViewSonic's zero clients are the smart choice for optimizing your virtual desktop deployment.

Features

- Zero Client for Virtualized Computing
- Hardware Accelerated VMware PCoIP
