

Kramer CRS-AOCH/Color-230 230ft Rental and Staging Active Optical High-Speed HDMI Cable

Kramer's CRS-AOCH/COLOR is an Active Optical HDMI Cable running 4K@60Hz 4:2:0 UHD, 4K @30Hz 4:4:4, over longer distances up to 100 meter (328 ft), in a simple & practical way.

The CRS-AOCH/COLOR cables are specially designed to not only meet the demanding conditions of day to day installations, but were also made to withstand the toughest of conditions in the rental, staging and production markets. Constructed with a TPU (Thermoplastic Polyurethane) rated jacket which has excellent abrasion resistance, tensile strength and high tear resistance, while still thinner, lighter and more flexible than copper cables while providing transparent EDID and HDCP support without signal attenuation and also provide reduced risk of EMI and RFI interference which provides a perfect solution for critical AV installations that demand the highest signal integrity.

The HDMI ends are color coded (Green for source, Red for display) to eliminate wrong installation in the field.

Features:

- Video Resolution - 4K@60Hz 4:2:0 UHD, 4K @30Hz 4:4:4 8Bit, full HD, 3D Deep Color across all lengths
- High Data Transfer Rate - Up to 10.2Gbps
- Embedded Audio - PCM 8-channel, Dolby Digital True HD and DTS-HD Master Audio
- High-quality connectors - 24K gold-plated, corrosion-resistant and best possible connectivity
- EMI & RFI Immunity
- No External Power - Powers the active units via the HDMI connector
- Thin Construction - 4.5mm (0.18") diameter
- Small Bending Radius - Only 6mm (0.24")
- Jacket Construction - TPU (Thermoplastic Polyurethane)
- RoHS 2011/65/EU compliant
- Cable Length - 230ft
