

Shinybow SB-6330 Shinybow Component Sender

Shinybow Component Video w/Digital/Analog Audio Transmitter w/2sets x Cat5 Outs: SB-6330

A compact transmitter for sending Component Video + Digital/Analog Audio signals over long distances (up to 1000ft) to a Cat5 Shinybow receiver or repeater. SB-6330 has 2 sets of Cat5 outputs to split signal between 2 x SB-6330R receivers. SB-6330 can be used with SB-6330R receiver unit which has 1 x set of Cat5 inputs and Component Video and Digital/Analog Audio Outs.

Note: Please [Review Diagram](#) and [Specifications](#) sheet prior purchasing

Features:

- Easy to install and highly reliable (commercial grade product)
- Supports HDTV Resolutions: 480p, 576p, 720p, 1080i and 1080p
- Supports multiple video formats though: YPrPb, YCrCb, YUV
- Long Distance Extension:

1. 200ft for 1080p
2. 350ft for 1080i
3. 450ft for 720p
4. 600ft for 576p
5. 1000ft for 480p

Technical Specifications:

- Inputs 1 x Component Video (3-RCA) + 1 x Digital Coaxial (1-RCA) + 1 set of Analog Audio (2-RCA)
- Outputs: 2sets x RJ-45 (Cat5)
- Brushed aluminum case with mounting brackets
- LED power ON indicator
- Resolutions support up to 1080p
- Video Bandwidth: 450Mhz (small signal bandwidth), 225Mhz (large signal bandwidth)
- Output Balance Error : -60dB @ 50MHz
- High isolation: 80dB @ 10 Mhz
- Power Supply: DC 12V / 300mA
- Dimensions: 4.4 x 2.75 x 1-(inch)
- 1.5LB
