

# PreSonus Studio 24 2x2 USB-C 24-bit/192kHz portable ultra-high-def Recording Solution with 2 Mic inputs/Studio One Artist

## Professional quality wherever you record.

Great for home recording, mobile musicians, guitarists, podcasters, and live streaming, the Studio 24 2x2 USB-C bus-powered audio/MIDI interface can record up to 24-bit, 192 kHz audio. Equipped with PreSonus XMAX-L solid-state preamps and high-end converters, it delivers professional quality audio in a rugged, compact enclosure, allowing you to create your next hit in your studio or on the go. A complete, all-in-one recording solution, the Studio 24 comes with PreSonus' award-winning Studio One® Artist music production software for Mac® and Windows®.

## Superior sound.

Audiophile-grade digital converters, ultra-low-jitter clocking, and XMAX-L solid-state preamps add up to a superior recording and listening experience. The Studio 24 operates at up to 192 kHz for ultra-high-definition mixing and recording. High-quality converters on every input and output enable you to capture complex musical harmonics smoothly and naturally with no audible distortion.

## Perfect for guitarists, singer/songwriters, podcasters, and more.

The Studio 24 audio interface is a great choice for podcasters, singer/songwriters, small personal studios, school music labs, live streaming, or a couple of guitarists who want to collaborate or jam. A Mixer knob blends analog input and computer playback for low-latency direct monitoring.

## World-class recording software included.

Seamlessly integrated with the included PreSonus Studio One® Artist music production software, the Studio 24 interface works with virtually all Mac and Windows audio-recording software. Built by creative people for creative music production, Studio One is easy to learn and enables you to compose, record, and produce your masterpiece without getting distracted by the tools. Studio One also enjoys a robust online community of enthusiastic and helpful users you can turn to for advice. Need a new loop or sample for your latest production? Studio One lets you shop, audition, and purchase new content right from your production environment.

## Take the tour.

The Studio 24 audio interface features two front-panel combo mic/instrument/line inputs with +48V phantom power for condenser mics. Accurate LED meters indicate input and output levels. A USB-C port and balanced, ¼-inch TRS, line-level main outputs grace the rear panel, and an output level control is provided on the front. MIDI I/O enables connection to a keyboard, sound module, or control surface.

## Designed for the studio. Built for the road.

Whether you're just getting into recording or are a veteran producer who wants to go mobile, the Studio 24 will give you clear, clean, ultra-high-def sound in a bus-powered, rugged unit that's ready to hit the road when you are. The perfect companion for any recording software, the Studio 24 comes equipped with Studio One Artist to provide you with a complete, affordable, mobile recording solution. Check out the Studio 24 at your favorite PreSonus dealer.

## Includes Studio Magic Plug-in Suite.

This suite of plug-ins adds a wealth of fresh sounds and effects to Studio One. Cherry-picked from the first names in virtual instruments and effects, each plug-in brings a different flavor of practical magic to your songs. These plug-ins aren't gimmicky one-trick ponies — these are real-deal workhorses that you'll rely on for countless mixes.
