

Electro-Voice SX100+E Sx Series 12 inch 2-Way 200W Speaker (Black/Neutrik Speakon Connectors)

The Electro-Voice Sx100+ is a high-quality, 2-Way Passive 12" 200-Watt Portable Speaker System. Enclosed in a rugged, rigid cabinet, the pure titanium high-frequency horn combined with its constant directivity design efficiently delivers the superior intelligibility and smooth performance required for professional PA and sound reinforcement applications.

Features:

- **Power Handling Capability:** 200-watts continuous with up to 800-watts peak output power
- **Ring-Mode Decoupling Design:** Delivers better coverage to off-axis audience, smoother and more detailed
- **Highly Portable Design and Use Flexibility:** Rugged, durable cabinet with built-in pole mount and adjustable rigging points for suspended installs or stand mounting
- **Color:** Black
