

## **Kramer DK22PD-N HighSecLabs Dual Head 2-Port 4K30 UHD DVI-I and DisplayPort KVM Switch**

DK22PD-N is a dual head 2-port, 4K30 UHD DVI-I and DisplayPort KVM switch. It enables users to share peripherals – keyboard, video, mouse and audio – between two different networks/computers.

### **Features**

- Small Form Factor — Occupies minimum desktop space.
- 4K30 UHD Resolution — Supports resolutions up to 3840×2160 @30Hz.
- Multi Display Support — Change to KM mode to enable switching keyboard and mouse control between computers, when each computer is connected to up to 4 displays (either extended or duplicated).
- Extended/Duplicated Display Support — Enables switching keyboard, mouse and up to 2 displays (either extended or duplicated) between computers.
- Freeze Audio — Assign the audio port to a specific computer while switching the keyboard, video and mouse between other computers. Useful for scenarios where a user has to listen to audio originating from one computer while working on another computer.
- Copy & Paste — Transfer text and files between all the computers that are connected to the KVM switch (no network connection is needed between parties). Use standard copy and paste keyboard key combinations (CTRL+C / CTRL+V) or context-menu commands.

### **APPLICATIONS**

- Government agencies
- Military
- Financial institutions
