

Kramer SK21D-N HighSecLabs 2-Port DVI-I KVM Switch

SK21D-N is a 2-port, small-form-factor DVI-I KVM switch. It enables users to share peripherals – keyboard, mouse and monitor – between two different networks/computers.

Features

- Small Form Factor — Occupies minimum desktop space.
- Copy & Paste — Transfer text and files between all the computers that are connected to the KVM switch (no network connection is needed between parties). Use standard copy and paste keyboard key combinations (CTRL+C / CTRL+V) or context-menu commands.
- Freeze Audio — Assign the audio port to a specific computer while switching the keyboard, video and mouse between other computers. Useful for scenarios where a user has to listen to audio originating from one computer while working on another computer.

APPLICATIONS

- Government agencies
- Military
- Financial institutions
