

Electro-Voice EVI28MBBLK Wall/Ceiling U-Bracket for EVI-28 (Black)

The EVI-28MB mounting bracket kit consists of a 10-gauge, cold-rolled-steel U-bracket, two friction pads and two washers. The kit is specifically designed for ceiling or wall mounting of the EVI-28 speaker system. The EVI-28 MB mounting bracket kit may be used in conjunction with the OmniMount Series 100 support system.

The EVI-28MB allows each system to rotate around its enclosure mounting centers, permitting angular adjustment after mounting. The EVI-28MB allows the EVI-28 speaker to be mounted in almost any position so as to obtain the desired sound coverage.

Features:

- Mounting kit for EVI-28 speakers
- May be used in conjunction with OmniMount® Series 100 support system
- Allows suspension of EVI-28 speakers from the ceiling or wall
- Color: Black
