

Electro-Voice X12128 1-Way 2x18 inch NON-Flying Subwoofer

The X-Line Advance X12-128 subwoofer produces the greatest low-frequency impact and performance EV has ever developed. It is truly a state-of-the-art compact cabinet that delivers more LF output in a smaller footprint than other subwoofers available today.

In addition to its extremely high output capability, the X12-128 is designed to acoustically match seamlessly with any X-Line Advance top cabinet as a ground stack subwoofer. LAPS 3 or higher (Line Array Prediction Software) accurately provides fast array configuration for coverage results. It also provides information for the creation of steered/shaped subwoofer arrays. It offers superior configuration flexibility for easier system design and setup, making it the standout subwoofer choice for any larger-format live or installed audio application.

Features:

- High-output, high-impact dual 18 inch ground stack subwoofer system.
- Dual front and rear signal connection points for flexibility in system configurations, including cardioid setup for increased focus of low-frequency output.
- Compact cabinets with low-profile footprint, suitable for under-stage applications.
- Super-high-output DVF4180 woofers for low distortion at extremely high SPLs.
- 105 dB sensitivity (1 W/1 m half space); 141/147 dB maximum SPL (continuous/peak).
