

Electro-Voice PL80C Vocal microphone/Dynamic/Supercardioid/Ultra low noise/CLASSIC FINISH

This product is a premium-grade supercardioid dynamic microphone designed to elegantly capture the character of vocals in live sound applications. The PL80c's "EQ-friendly" sonic contour adapts well to any vocal texture allowing vocals to sit nicely in the mix without being harsh. The enhanced isolation provided by its supercardioid polar pattern is an excellent defense against system feedback and cross-talk bleed emanating from other nearby sound sources. The result is higher gain before feedback and cleaner stage mixes. Although designed to be a vocal microphone for music and spoken word, the PL80c will also function well as an instrument or amplifier microphone where a dynamic element capsule would be desired.

Features

- Incredible vocal power and clarity
- Robust, forgiving, and EQ-friendly performance
- Superior off-axis rejection,
- Ultra-low handling noise
- Exceptionally cooperative tonal characteristics
- "Classic" PL finish
