

Electro-Voice ID60DT 60 Watt/70V Driver for Reentrant Horns

The ID60DT is a 60-watt, heavy-duty driver for re-entrant horns. This driver is designed for use in applications that require continuous, high-level, acoustic output such as high-level public address. The ID60DT features rugged, weather-resistant, phenolic diaphragms, indoor and outdoor packaging, and a 1", screw-on exit.
