

Audio Authority 9878-b Dual Cat5 Stainless Wallplate RCA Extender (Receiver)

Please **NOTE**: This listing is for **B-Stock** item. It means that this unit was refurbished by manufacturer and holds full manufacturer warranty, however it may have scratches, signs of wear and tear or come not in original box.

When connected to a compatible Audio Authority driver, the 9878 provides pristine component video, digital coaxial audio, analog L/R audio, and an IR receiver input, along with an F-connector pass-through for convenience. The 9878 features durable stainless steel construction and a cable length compensation adjustment to maintain image and sound quality over long Cat 5 runs. It fits in a standard US Dual-Gang wall box for convenience in installation.

- Durable, one-piece, stainless steel wall plate design
- One inch shallow mounting depth
- Cable length compensation adjustment allows the installer to fine tune image and sound quality over long Cat 5 runs
- F-connector pass-through jack for convenient antenna connection (requires separate coax cable run)
- Fits in a standard US dual-gang wall box
- Compatible with: Models 1170, 1171, 1176, 9871, 9870, AVX-661, and AVX-561

The 9878 is one of three Cat 5 receivers compatible with the 1100 Series. Use any combination of receivers in the same system for the perfect mix of logistics and aesthetics
