

ICRealtime IH-D7711Z 7 Inch Video Intercom Indoor Panel LED Touch Screen/White

The IH-D7711Z is a cutting-edge 7-inch video touch screen indoor unit that works specifically with our IP outdoor camera stations. These indoor units display video and audio when someone activates the outdoor station and allows for instant communication with visitors. The indoor intercom units also allow for the door to be unlocked by simply pressing a button on the touch screen interface. These units feature group calling and multiple indoor devices can be placed throughout the home or office for ease of use. The device also supports SD card storage and can record visitor images and video.
