

Kramer CRS-AOCH/COLOR-328 328ft/100m Rental/Staging Active Optical High-Speed HDMI Cable

This listing is for CRS-AOCH/COLOR-328 Cable (328ft/100m) only. Use description below as a general reference.

Kramer's CRS-AOCH/COLOR is an active optical HDMI cable for 4K@60Hz (4:2:0) and 4K@30Hz (4:4:4) resolutions over distances up to 100m (328ft). Built with a TPU-rated (thermoplastic polyurethane) jacket that has excellent abrasion resistance, tensile strength and high tear resistance, this cable can withstand the most demanding conditions in rental, staging and production setups. And it is thinner, lighter and more flexible than copper cables.

The CRS-AOCH/COLOR includes transparent EDID and HDCP support and reduced risk of EMI and RFI interference for critical AV installations. The cable's HDMI ends are color coded (green for source and red for display) to prevent installation errors.
