

## **AG Neovo SC-24AH 24 inch Full HD surveillance TFT LCD Display with Analogue HD-over-Coax**

The SC-24AH is a 24" Full HD (1920 x 1080) display designed for 24/7 surveillance. As a full-service surveillance display the SC- 24AH includes a range of features topped by the inclusion of AHD 2.0 /TVI 2.0/960H/720H inputs. These Analogue HD-over-Coax inputs allow for the transmission of high-definition 1080P video with zero-latency over an analogue coaxial cable connection. The benefits of using the SC-24H include passive looping via its output connection, backwards compatibility with traditional analogue cameras through standard coaxial cables, and 500m transmission distances. Other features for the SC-24AH include Anti-Burnin™ technology which is designed to prevent image burn-in on displays that show the same uninterrupted images for an extended period of time, and built-in image enhancing tools such as 3D Deinterlacing and 3D Noise Reduction which helps improve overall image clarity. This combination of features helps make the SC-24AH a surveillance display worthy of distinction.
