

## **Smartavi EZWALL-PLUS 2X2 2x2 HD Video Wall Controller HDMI/DVI and VGA Input Integrated USB Media Player**

The **EZWall-Plus 2x2** from SmartAVI is the perfect video wall solution for a wide variety of environments. With four single-link HDMI outputs, users can create an attractive and dynamic 2x2 video wall display.

### **EZ Video Wall Solution for Users of Any Technical Proficiency**

EZWall-Plus 2x2 is capable of stretching any HD display over four screens, while maintaining any resolution up to 1920x1080 on each screen. This powerful solution stretches and amplifies video imagery in multiple ways, including Wall Mode and Clone Mode. Better yet, the EZWall-Plus 2x2 is plug-and-play ready, easy to use and install for AV integrators of any technical skill level.

### **Effective 2x2 Displays for Any Application and Environment**

The EZWall-Plus's 2x2 screen configuration makes it an excellent fit for airports, classrooms, retail spaces, and restaurants. It excels at showcasing brand-driven content, entertainment media, decorative graphics, and informative slides.
