TASCAM IF-E100 Ethernet Control Card for CD-400U

The IF-E100 is an Ethernet control card for the TASCAM CD-400U CD/SD/USB/Bluetooth®/AM/FM player. Installation of the IF-E100 into a CD-400U enables external Ethernet control via Ethernet in netowrked systems.

The CD-400U Network Settings application enables adjustment of network settings for a IF-E100 equipped CD-400U via a Windows/Mac web browser.

Features

- Enables external control of TASCAM CD-400U using Telnet through an Ethernet connection
- Supports 100BASE-TX
- Network settings can be made and checked using the CD-400U unit menu or the CD-400U Network Settings web browser application, which is compatible with Windows and Mac
- RJ-45 connector
