

Xantech EN85K Universal IR Kit

Ensemble Universal IR Kit.

The EN85K Ensemble is a convertible IR Receiver Kit that can be adapted to almost any surface mount, flush mount or shelf mount application. It includes all of the parts necessary for installing a single-room IR Repeater System for controlling a TV, Audio/Video Receiver, Blu-ray player, Cable Box, Satellite Receiver or just about any IR controlled A/V home entertainment device.

The kit includes an IR Receiver that can be attached to the front of a TV, or extended from behind with the TV Mount Adapter on flat panel TVs that have a minimal frame around the display area. The receiver can also be adapted to low-profile shelf-top placement with the Tabletop Adapter or inconspicuously mounted in a cabinet door with the Flush Mount Adapter for controlling IR components hidden in an equipment cabinet.
