

Aurora Multimedia ORC-3C-W Complete ORC-3 Kit with Ethernet/ Host side USB/ Web control (White)

This listing is for ORC-3C-W only. Use description below as a general reference.

One Room - One Cable™ Kits make specifying, ordering, deploying and installing easy, organized and streamlined. Each kit is based around Aurora's award winning DXW Series wall plates. ORC-3 ships complete with the DXW-2EUH Wall Plate/Switcher featuring HDMI and VGA inputs with auto switching, DXE-USB-D1P USB Receiver, Ethernet, and USB, DXE-CAT-RX3-A HDBaseT Receiver with dual relays for screen control and 2x35W amplifier, two SKR-22T 2'x2' Ceiling Tile speakers and the DXB-8 8-button controller keypad. The ORC-3 on-board USB 2.0 extender allows it to be used with Interactive projectors and displays as well as USB Cameras and other accessories. The DXB-8 control keypad comes pre-programmed for controlling the DXW-2EUH and DXE-CAT-RX3 Audio. Only thing the user needs to do is drop in Display ON/OFF commands. It's that easy! All of these One Room - One Cable™ kits ship in a single box making deployment as easy as possible. Perfect for Classrooms, Conference Rooms and other single room AV applications.

*C Version includes integrated customizable web-based control system
