Aurora Multimedia RXS-1 IPBaseT Pro Server with ReAX control engine

Introducing the all-new RXS-1, the solution to your AV over IP control needs. Loaded out of the box with Aurora's own IPBaseT Pro Server control software and the new, lightweight ReAX™ control engine. Powered by Linux, the RXS-1 All-In-One control system comes packed with an Intel® Core i5 processor, 8GB RAM, an 128GB SSD, and a 3-year warranty.

The RXS-1 is designed to interface with Aurora's AV over IP line of transceiver products. Seamless integration with the VLX and IPX product lines allows for easy setup and faster installations.
