

Galaxy Audio AS-1400-4 Wireless In-Ear Personal Monitor Band Pack (Transmitter/4x Receiver)/40Hz-16kHz

The AS-1400 Band Pack Systems makes it easy for any band to Get Personal. The system Includes four receivers and one transmitter. It is designed to get the whole band wireless in one package. Additional transmitters may be purchased at a later date to add mixes.

The new AS-1400 is the latest addition to Galaxy Audio's highly acclaimed line of Wireless Personal Monitors, offering high end features and performance at a very affordable price. The transmitter features stereo XLR/1/4" inputs, headphone output with volume control, input level control, and LCD display for channel and input level. The Receiver features Mixed Mono Mode for your own personal mix, volume, and an LCD display with channel, battery level, and RF level. Galaxy Audio's new comfort EB4 premium ear buds feature titanium drivers, extended bass response, aluminum alloy construction, and now come standard with all WPM models. The AS-1400 is perfect for the working musician, House of Worship or any application requiring an affordable, reliable WPM system.
