

Roland M-48 Live Personal Mixer (includes mounting bracket and tray)

The M-48 is the next generation live personal mixer that offers musicians the flexibility to control exactly what they want to listen to during their performances. It provides the highest level of sound monitoring quality for both headphones and IEMs (In-Ear Monitors) as well as for wedge and powered monitors. The superb sound quality creates the ideal monitoring environment for live performance and recording as well as studio applications.

Features:

- Choose from 40 audio sources and assign to 16 stereo groups
- Sweeten your mix using built-in reverb, limiter, EQ, pan, and volume
- Control, save, recall users settings from V-Mixer or PC with control software
- Multitude of input and output connections along with ambient microphone
- REAC embedded power provides clean flexible stage setup
