

Roland TD-25KV-S V-Drums Electronic Drum System

Dynamic, Expressive Playability and Quick Customization

With the TD-25KV, serious drummers can tap into high-end V-Drums playability in a mid-level kit for home and studio. Equipped with a sound engine derived from the flagship TD-30, the TD-25KV delivers all the acclaimed expressiveness that makes Roland's top-line V-Drums the undisputed choice of pro players everywhere. A streamlined interface makes it easy to create personalized kits, while the built-in audio recording function lets you capture drum performances for evaluation and sharing. Other premium features include mesh-head pads for a natural feel, positional snare sensing for enhanced expression, and the VH-11 V-Hi-Hat for playing with authentic hi-hat techniques.

Features:

- Advanced SuperNATURAL sound engine based on the flagship TD-30
- Sound quality and expressiveness equivalent to the top-of-the-line V-Drums
- Simple, logical interface for easily swapping and customizing each drum and cymbal in a kit
- PDX-100 10-inch mesh-head snare pad with support for positional sensing and rim shot/cross stick playing
- Three mesh-head tom pads: two PD-85BK 8-inch pads for rack toms and one PDX-100 10-inch pad for floor tom
- VH-11 V-Hi-Hat mounts on a standard acoustic hi-hat stand and offers realistic motion and a natural acoustic feel
- Two CY-12C 12-inch crash cymbals with natural swinging motion, edge/bow sensors, and choke control; CY-13R 13-inch ride cymbal with natural swinging motion and edge/bow/bell triggering
- KD-9 kick pad with cloth head for great feel and solid playability
- Play along with WAV/MP3 songs and capture drum performances as audio tracks to a USB memory stick
- Build drumming skills with the onboard Coach functions
- Quick-access metronome with dedicated screen, on/off button, and tempo knob
- USB host port for audio/MIDI communication with a computer
