

Tannoy FLYING BRACKET VQ VQ Series Flying Bracket

VQ FLYING BRACKET VQ

The VQ Flying Bracket is custom engineered to facilitate safe and hassle-free single-point hang of any VQ full range (VQ 60 / VQ 100) or VQ MH (40 / 64 / 95) enclosure or combination of modules (including VQ MB and VS 15DR devices). The bracket will also fit equivalent VQNET models. The steel bracket is securely mounted on top of the cabinet or cluster column and combines with VQ Rod End (available separately) to provide the desired tilt angle and toe-in. Threaded Rod UNC and VPC Pole Clamps or other standardised flyware components are required to complete the hang. VQ hardware exceeds a 10:1 load safety rating, giving complete peace of mind and security for installers and end users.

Features:

- VQ series flying bracket for single point suspension
- For use with all VQ full range enclosures and clusters
- Provides the desired tilt angle and toe-in for optimum positioning
- Stepped slots allow for easy angle adjustment
- T-shape steel construction with greater than 10:1 load safety rating
- Hard wearing semi matt black powder coat finish
- Requires VQ Rod Ends (available separately)
- 10-Year Warranty Program*
- Designed and engineered in the U.K.
