

Tannoy VSX 15DR 15 inch Direct Radiating Passive Subwoofer for Portable and Installation Applications (Black)

The Tannoy VSX 15DR is a high power handling direct radiating subwoofer, designed to extend low frequency response and increase system headroom in conjunction with Tannoy VX and VXP Series full range loudspeakers, as well as offering a highly potent low frequency device for use with many of Tannoy's other systems, such as VLS Series or DVS Series.

Extending overall frequency response to below 40 Hz, the VSX 15DR can be deployed as part of any system designed to provide high impact background music in applications ranging from clubs, bars and cafes, right through to theatres and AV presentations.

The VSX 15DR utilises a single high efficiency 380 mm (15") drive unit mounted in a compact and sturdy, black or white painted plywood cabinet which is constructed from 18 mm (0.71") multi-ply birch hardwood. This heavy-duty construction ensures it is designed to survive the punishment that speaker systems are subjected to on the road and in club installations.

Featuring a rugged and durable birch ply enclosure, with ergonomic Integrip™ carry handles and integrated, recessed termination panels with NL4 speakON and barrier strip connections for ease-of-install, the VSX 15DR is a highly flexible subwoofer. As well as fixed install, VSX 15DR can easily be coupled with VX Series and VXP Series and VLS Series column loudspeakers for portable/ live PA applications thanks to an integrated pole-mount recess and the optional VTH pole mount.

The versatility and impressive performance of this subwoofer make it ideal for applications such as live sound reinforcement, nightclub sub bass, theatre front of house and effects, movie theatres and cinemas, side fill in large scale music reinforcement, theme parks and leisure venues, sports and multi-use stadiums, audio visual, high quality public address and houses of worship.

Features:

- 380 mm (15") drive unit mounted in direct radiating configuration
- High performance LF driver design delivering exceptional bass response
- Recessed Integrip handles for ease of handling
- Recessed termination panels for flush mounting of connectors
- Recessed pole-mount locations for use in portable PA applications
- Rugged plywood construction finished with textured black or white paint
- Improved aspect ratio, deeper volume, more compact front
- Color: Black
