AVPro Edge AC-PSU-EX70-SQUID-8-EL Power Squid/The Power Supply for Eight Extenders/1.25m Leads

The Power Squid: Power Eight 70 Meter Extenders at the Same Time.

AVProConnect has given the AV Market the slimmest HDMI Extenders avaliable, and now there is a way to clean up your installation and get rid of 7 power supply's while doing so. The Power Squid from AVProConnect was built specifically to power 8 AC-EX70-UHD Rx's or Tx's all at the same time. Forget about having to plug in 8 different power supply's to get your extenders operational, just grab a Power Squid and one outlet is all you need. Not to mention you are getting rid of a lot extra wires from the install, giving you a clean professional appearance. Also, as always, you get the military grade stability you are used to receiving from AVProConnect products.

Information about the AC-EX70-UHD, the Ultra Slim 70 Meter HDMI extenders from AVProConnect:

The AVProConnect primary extender is the most cost effective, state of the art and reliable single CAT 70 meter extender on the market today and solves problems for both commercial and residential markets for distributing high value 4K UHD content from rack to display. With the additional ability to cascade extenders affordable and reliable HDMI extension is now possible. Additionally AC-EX70-UHD offers solutions for UHD/HD uncompressed distribution in residential digital entertainment centers, retail stores, AV events that require reliable and long distance distribution, suitable for Data Center, Control Rooms, Conference Rooms, Schools and Corporate Training environment.
