

Phoenix Audio MT202-EXE Duet EXE Conference Speaker phone PC/Laptop/cellular phone (Black)

Duet EXE MT202-EXE

The Duet Executive is a table-top personal speakerphone designed for video conferencing via its USB connection. It also supports a “smart” analog connection allowing it to be used as a plug-in device for smartphones and tablets. Its size and durability makes it portable and perfect for travel. The Duet Executive is the perfect device for personal use or home office.

Offering multiple interfaces in a single product. This feature allows the use of one product in a room that requires multiple connectivity options (audio and video conferencing).

The ability to provide power to the device through the USB connection getting rid of the need to use a separate power supply.

The MT202 Duet EXE is made primarily with strong high quality metal parts designed to hold up to the rugged life of being on the move.

Features:

- Offering multiple interfaces in a single product. This feature allows the use of one product in a room that requires multiple connectivity options (audio and video conferencing).
- The ability to connect two calls from different interfaces simultaneously, making your video conferencing participants able to speak with your audio conferencing participants as well as yourself through your device.
- The ability to provide power to the device through the USB connection getting rid of the need to use a separate power supply.
- The MT202 Duet EXE is made primarily with strong high quality metal parts designed to hold up to the rugged life of being on the move.
