

Altinex MT304-203 3x1 HDMI Switcher

The MT304-203 is a universal 3x1 auto video switcher card for the MultiTasker enclosure. The card can operate in both 12 slots and 20 slots enclosures installed horizontally or vertically. **The MT304-203** has 3 different video format inputs: HDMI, VGA +Audio and Display Port. **The MT304-203** converts different video formats to a single HDMI signal output. The card can switch video signals with up to 1920x1200 resolution.

The MT304-203 incorporates a manual switching or auto switching. The auto switching is based on a priority or last-in, first-out configuration.

The MT304-203 is a universal 3x1 auto video switcher card for the MultiTasker enclosure.
