

## **Aurora Multimedia IP-24PoE+ 24 Port 10G PoE/PoH Injector 750 Watts**

The IP-24PoE+ is the first ever 24 port PoE+/PoH+ injector to deliver power on a 10G connection. It is compatible with any standard 1G or 10G network switch and will deliver up to 30 watts of power per port.

This allows for a clean installation of any 1G or 10G PD capable device, alleviating the need for local power supply. Aurora designed the IP-24PoE+ for its IPX Series SDVoE AV over IP product line as it currently is the only 10G AV over IP with PoE. The IP- 24PoE+ can also supply power to HDBaseT™ PoH products providing remote powering as well.

In the case of an under powered PoE network switch, the IP-24PoE+ will provide the additional power to the ports requiring or to simply add PoE+ to ports lacking.

Taking up only 1RU of rack space the, IP-24PoE+ is the only 10G PoE+ solution for a clean installation.

### **Features:**

- 24 RJ-45 ports
- 1G and 10G
- 30 Watts per port PoE+/PoH+
- LED PoE active indicators
- 750 Watts Total Power
- IEEE 802.3af, IEEE 802.3at
- 1RU Rack Size
