

Atlona AT-HD41D 4x1 HDMI + DIGITAL AUDIO SWITCH (HDMI 1.3) with 3D Support

4x1 Atlona HDMI w/ Digital Audio Switch (HDMI 1.3) with 3D Support. Model: AT-HD41D

Atlona AT-HD41D is a high performance HDMI 1.3 switcher with remote. Simply pressing a button on the remote you can select your desired HDMI source to be routed to a high definition display. Switcher is tested to guarantee resolution up to 1080p without signal degradation. Great advantage of this switcher is that you can now route your digital audio through it as well, rather than separately going in to the receiver. With a click of a button you can switch HDMI (video) and Optical or Coaxial (Audio). This simple advantage will make your life much easier, you would only have 2 cables going out of the switch (HDMI and Optical or Coaxial), one to the TV and another to an Audio Receiver.

HDMI repeater is built in to the switch for long output cables. If your cable over 15ft distance then with regular switch you would get signal degradation; however with AT-HD41D signal can be amplified to go over 60ft.

User Instructions:

Installs in seconds. Connect all the digital video sources to any of the inputs on the switch and connect the output cable to the hdtv display. Use a remote control or buttons on the front panel to switch video inputs. We recommend to use high quality HDMI cables for the best signal transfer.

Inputs and Outputs:

- 4 x HDMI Inputs
- 4 x Optical Inputs
- 4 x Digital Coaxial Inputs
- 1 x HDMI Output
- 1 x Optical Output
- 1 x Digital Coaxial Output

Package Includes:

- Atlona 4:1 HDMI 1.3 Switcher w/Digital Audio
- IR Remote control
- 5V Universal Power Supply
- User's Manual

Features:

- **3D Capable**
- Supports high resolution input: up to 1080p or 1920x1200
- HDMI 1.3, HDCP 1.1 and DVI 1.0 compliant.
- Supports 30/36/48 bit color depth display
- Supports High Definition audio - Dolby Digital TrueHD and DTS-HD Master Audio
- The unit has the function of Signal Enhancer to improve signal quality after long distance transmission.
- Ideal for home theater integration.
- Remote control.
- RS232 input for connecting to control system
- Easy to install and simple to operate.

Specifications:

- Frequency bandwidth: 2.25Gbps (single link)
- HDMI Standard: HDMI 1.3
- Inputs: 4 x HDMI female ports (Type A connector), 4x Optical, 4 x SPDIF
- Max. Resolution: 1080p or 1920x1200
- Power Supply: 5V DC Universal 110/220
- Dimensions: 9 1/2" x 4 1/2" x 2"; H
- Weight: 5LB
