

Atlona 07-058 High-Quality Triple RCA Coupler For Audio/Video Cable Extension

Description: High Quality. Gold RCA coupler. Triple RCA (female) to RCA (female)

Applications: Mainly used for gender changes of the cable. For example, you have a male to male cable. This coupler will adapt to make your cable a male to female. A general reason for this kind of conversion is to make a one long cable out of two short or some equipment has a male connection in the back instead of female, and so on.

Specs:

- Gold Plated
- Triple RCA female to Triple RCA female
