

QOMO QIT1455 Journey 14 Series 55in 4K LED Touchscreen with Android 6.0

QOMO's newest Journey 14 series is our sleekest and fastest interactive panel yet with an all new interface. We added new anti-frustration features, including:

- Easy-to-access and hard-to-lose magnetic pens
- Built-in Bluetooth so you can mix and match external hardware
- Create multiple accounts with unique user profiles
- Upgraded 32 GB of storage

Our built-in Android 6.0 operating system makes it as simple to use as a smartphone or tablet. It's a digital display designed for teamwork, with up to 20 multi-touch points and annotation capabilities that perfectly capture the real-life experience of writing on a whiteboard. Plus, you can wirelessly cast up to 4 devices.

choose which apps can be accessed by other users, and which are locked.

There's work time, and there's play time. You decide what time it is. In addition to a preloaded suite of apps that includes Google Chrome, YouTube, Airplay, and Office 365, you can access thousands of apps directly from the Journey 14. We increased storage to 32 GB, so you don't have to be picky.

our new anti-frustration interface design.

Our new headache-proof design includes friendlier file management and built-in remote capabilities for managing groups of panels from a distance.

multiple accounts equals more bang for your budget.

We've made it easier to share one device by adding multiple accounts with unique user profiles.

personalize your inputs and add your favorite apps.

Once you've got it the way you like it, save your preferred settings to your unique profile.

remote panel updates to save IT headaches.

IT can push updates, send messages and power on and off a group of panels without being on site.
