

Atlona AT100052 ATLONA SPEAKER TERMINAL BOARD

Atlona Speaker Terminal Board

Description:

Speaker Terminal Board with 2 Gold plated Binding posts. This terminal board was designed for custom applications, where a replacement of the original speaker board is required. However it can also be found in other applications such as custom built speakers. Both binding posts will support a speaker wire of 10~18 gauge thickness. The rear side of the board requires the use of either Spade Connectors, Mini Spade Connectors or a direct soldering of a speaker wire.

Note: Please click on the 5th picture at the bottom for dimensions to pop up

Applications:

Primarily used in speakers to Replace Broken terminal boards or to change the terminal board types.

Specs:
