

Hall Technologies EMCEE200 Seamless Multiview Presentation Switcher

EMCEE200 is a seamless multiview presentation switcher scaler with Picture-in-Picture (PIP) and Picture-Over-Picture (POP) capabilities. It can process up to four 4K@60 video sources with zero latency and gives "CONFIDENCE" and "PRESENT" HDMI outputs in different window layouts. With a built-in dual MIC mixer and a wide range of Audio Embedding and De-Embedding options, EMCEE is a perfect companion for any type of presentation. EMCEE can not only record the presentation to an external storage device but also provides USB3.0 4K capture to stream live with no additional hardware.

Features:

- Seamless Switching
- 4K@60 4:4:4 on all Inputs and Outputs
- Picture-In-Picture (PIP) and Picture-Over-Picture (POP) with Multiview
- Recording and 4K Capture
- Dual MIC Mixer
