

Lumens DC136 4K Portable USB Document Camera

The Lumens® DC136 is one of the modern and easy-to-use USB document cameras that Lumens has created. It features a 1/3" 13MP SONY image sensor and larger than the A3 shooting area. Not only does the DC136 deliver vivid images, but it can also capture an extremely close-up view. The signature gooseneck design enables teachers to position the camera head in any direction and even a webcam view. The DC136 empowers teachers and students to share and learn in person or in online classes.

Features:

- 4K 30fps UHD
- Gooseneck design for 2-in-1 Solution
- Larger than A3 shooting area
- Extreme close-up photography
- USB plug and play
- 5 Year Warranty
