

Atlona AT-LCF-16 16ft Flat High Speed 1080P HDMI Cable for HDTV ROKU PS4 XBOX One LED LCD

The Atlona LinkConnect High Speed Flat HDMI Cable w/Ethernet is specially designed to make routing and installing cables behind HDTVs, wall mounts, and under carpeting easy. This low-profile flat cable enables you to make your audio/visual set-up cleaner and neater than ever before without sacrificing quality. Enjoy an excellent picture with 1080p HD and digital audio support. All backed by an AtlonaAdvantage lifetime warranty.

Atlona LinkConnect High Speed Flat HDMI Cable w/Ethernet

The Atlona LinkConnect High Speed Flat HDMI Cable w/Ethernet is specially designed to make routing and installing cables behind HDTVs, wall mounts, and under carpeting easy. This low-profile flat cable enables you to make your audio/visual set-up cleaner and neater than ever before without sacrificing quality. Enjoy an excellent picture with 1080p HD and digital audio support. All backed by an AtlonaAdvantage lifetime warranty.

Sleek and Flat

- Low-profile flat design is ideal for running behind flatscreen TVs, wall mounts, and under carpets.

Paintable Jacket

- The flat design is specially suited to be painted and to blend easily with walls.

Please note: This specific Atlona cable type is directional and one end must be connected to the source device (e.g., blu-ray player) and the other end to the display(on the cable side where is says:TV). Hooking them up backwards won't transmit a signal.
