

Gefen EXT-AUD-1000 Audio Extender (Receiver/Sender) Kit Up To 1000ft

Extends your Audio up to 1000 feet from your Computer.

How it works The Audio Extender sender unit sits next to your audio source. Stereo cables supplied with the Audio Extender package connects your audio source to the sender. The receiver unit connects to your speakers or audio output device. One CAT-5 cable connects the sender and the receiver to each other - up to 1000 feet away.

Features:

- One CAT-5e cable used for extension
- Installs in seconds
