

Gefen EXT-3GSDI-441 4x1 3G SDI Switcher (Pre Order)

Intended Use(s): Home Theater | Computer A/V | Digital Signage

Switch Four 3G-SDI Sources to One Output -- Instantly The Gefen 4x1 3G-SDI Switcher allows any one of four high-bandwidth 3G-SDI, HD-SDI or SDI sources to be switched to a single output without a switching delay or loss of signal quality. Ideal for cutting equipment costs in the studio by enabling shared signal routing, this 3G-SDI Switcher supports source resolutions up to 1080p and has convenient switching methods. **How It Works**

Up to four 3G-SDI sources connect to BNC input jacks on one side of the Gefen 4x1 3G-SDI Switcher. A single 3G-SDI output connects on the output side. Power is applied to the 4x1 3G-SDI Switcher and a vibrant video picture is transmitted to the output device. Any 3G-SDI input source is selectable via the included IR remote control or a selector button on the front panel of the 4x1 3G-SDI Switcher. Selection of sources may also be performed by using the RS-232 communications port.

Features:

- Switches four 3G-SDI sources instantly without signal degradation
- Streamlines equipment by eliminating unnecessary hardware
- Switching is accomplished 3 ways -- by using the optional IR remote, the front panel selector button, or the RS-232 interface.
- Video resolutions up to 1080p are supported

Specifications:

- Supports NTSC, PAL & and all HD formats
- Input/Output: HD-SDI-SMPTE 292M (1.485, 1.485/1.001 Gbps)
- Input/Output: HD-SDI-SMPTE 424M/425M (2.97/3.0 Gbps)
- Input/Output: SDI-SMPTE 259M-C (270Mbps)
- Dimensions: 7.5"W x 1.1"H x 3.5"D
- Power Consumption: 10 watts (max)
- Power Supply: 5V DC
- Shipping Weight: 4 lbs.

Package Includes:

- (1) 4x1 3G-SDI Video Switcher
- (1) 5v Locking Power Supply
- (1) Infrared Remote Control
- (1) User's Manual
